

They Laughed When I Said "Free Air Conditioner"

But When They Saw My Results...

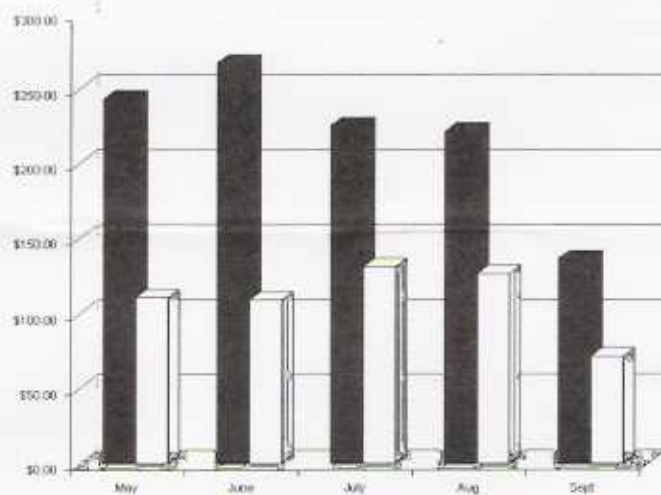

Hello Friend!

This is no joke - my super efficient Amazing Comfort System pays for itself. It'll cut your home comfort electric bills 30-60%* **GUARANTEED**. Plus, on select systems, you'll also get a **FREE FURNACE!** And since you make **NO** payments for the first year, it begins paying for itself before you pay a dime!

Houston Homeowner R.M. laughed, but then she saw her results:

These are actual electric bills received the summer before (shown in black) and the summer after (shown in white) we installed one of our Amazing Comfort Systems in Ms. M's home.

This isn't just hype. Our installations pay for themselves, and when we add a free furnace giveaway on select systems...
